

# Summer Reading Retro Game:

## Corners

- Draw a large square on the pavement with four small squares in each corner in different colours.
- Draw a circle in the middle of the square.
- Have one person stand in the middle on the circle. They close their eyes and count to 10.
- While their eyes are closed, the rest of the players skip around the court and choose a corner to stand in. (More than one player can stand in the same corner)
- With their eyes still closed after counting to 10, the person in the middle calls out one of the four corner colours.
- Whoever is standing on the corner that was called is out.
- The game continues until all the players are out.
