

Let's Play Knockout!

What you'll need:

- Dry erase board or white sheet of paper
- Dry erase marker or pencil
- 2 dice (if you have some of your own, perfect! If not, cut out and fold that paper dice included in your kit!)

How to Play:

Step One: Write the numbers 2-12 on both sides of the dry erase board or paper and set it between two players.

Step Two: Take turns rolling both dice and add the numbers you roll together. Erase or cross out the sum from your side of the board.

Step Three: The first player to erase all of their numbers wins.

Want an extra challenge? Use a 10 sided dice and write the numbers 2-20 on the board!
